

## FOR AGRICULTURAL EXEMPTION IN DOUGLAS COUNTY, KANSAS

3755 E 25<sup>th</sup> Street, Lawrence, KS 66046  
785.331.1343 | 785.842.1201 [Fax]

**DETERMINATION OF AGRICULTURAL USE EXEMPTION:** The State of Kansas has given Kansas counties the authority to develop and adopt zoning regulations for their unincorporated areas. However, K.S.A. 19-2908 mandates “except for floodplain regulations in areas designated as a floodplain, regulations adopted pursuant to [the county planning and zoning enabling act] shall not apply to the use of land for agricultural purposes, nor for the erection or maintenance of buildings thereon for such purposes so long as such land and buildings erected thereon are used for agricultural purposes and not otherwise.” No definition of agricultural purpose or use is provided in this section of the Kansas statutes.

The Kansas Attorney General (96-89 Op. Att’y Gen. 3, 1996) has summarized the “agricultural purpose” test as follows: “The agricultural use must be substantial enough to indicate that the owner is not masking a residential use of the property with an agricultural pretense as a ruse to gain exemption from zoning regulations.” The purpose of this section is to outline a process and specific criteria by which agricultural exemptions may be determined and granted in Douglas County in accordance with the requirements of K.S.A. 19-2908.

**AUTHORITY:** The Director of the Douglas County Zoning & Codes is hereby granted the authority to determine when an agricultural use exemption is warranted in accordance with the criteria specified in this section. Upon such determination, the Director shall issue a letter granting the exemption and a record of such exemption shall be maintained by the Department. Any person not in agreement with the Director’s determination may appeal the decision to the Douglas County Board of Zoning Appeals. In the case of an appeal, an application fee shall be charged, but will be refunded if the Board of Zoning Appeals grants the exemption.

**EXEMPTION USE:** To receive an agricultural use exemption, the landowner requesting the exemption must complete and submit an application, on forms provided by the Department, along with all required supplemental documentation. No application fee shall be charged for an agricultural exemption determination.

**EXEMPTION:** When an existing agricultural tract or on any tracts to be created by subdividing land, the Director must determine a significant agricultural operation exists or is planned which would warrant support of an agricultural operation. In making this determination, the following criteria shall be used:

a. There must be an agriculture use, as defined herein, on the subject property or on adjoining property owned or leased by the applicant, which in total constitutes a significant agricultural operation providing documentation that the operation has received or intends to produce income.

b. A significant agricultural operation cannot be defined in precise terms but shall include the following minimum standards:

1) The applicant must have filed a Schedule F, Profit or Loss from Farming, with the Internal Revenue Service for the preceding year. If the applicant is a new agricultural producer and does not have a record of a Schedule F, the applicant must submit an approved business plan, approved agricultural loan from a lending institution or similar itemized documentation qualifying the applicant’s investment in the agricultural operation; and

2) The amount of land in agriculture use which constitutes the entire agricultural operation of the applicant must be at least three (3) acres.

c. The applicant must demonstrate they are “engaged in agriculture”. For purposes of granting the exemption, “engaged in agriculture” shall include, but not be limited to, one or more of the following actions:

1) The applicant must regularly and frequently make or take an important part in management decisions substantially contributing to or affecting the success of the agricultural operation;

**REQUIRED INSPECTIONS:** Douglas County has the right to inspect your land in determining the justification for your request.
