2017 PRELIMINARY SALE RATIO NUMBERS RELEASED BY THE STATE

The Division of Property Valuation, Department of Revenue, in March released the 2017 preliminary mid-year sales ratio study. The final report will be released in July or August of this year. The sales ratio study is an annual analysis of the relationship between appraised values established by the appraiser's office and the property's sale price.

According to the report, Douglas County's median ratio for residential property in 2017 was 95.0% with a COD of 8.4. A total of 254 sales were used in the study.

Residential		
Year	Median Ratio	COD
2017	95.0	8.4
2016	97.0	7.0
2015	98.9	6.3
2014	98.2	8.4
2013	100.0	7.8
2012	103.3	8.1
2011	104.2	7.7
2010	101.2	6.2
2009	100.7	4.5
2008	100.3	4.3
2007	100	4.8
2006	99	5.4
2005	96	5.6
2004	98	5.6

The median ratio is the middle ratio after all the ratios are arrayed in order from the lowest to the highest. The statistic measures the appraisal level in the county. The appraisal level is an indication of how close the county's values are to the fair market value or the 100% level (the sale price). State statutes require that the county's appraisal level be between 90 and 110.

The COD (coefficient of dispersion) measures the amount of variation in the county valuations around the appraisal level (median). The smaller the COD the less variation in the ratios about the median ratio, which translates into better equity in the county values. State statutes require

that the county's COD be less than 20 for all classes of property.

The PRD (price-related differential) for residential property in 2017 was 1.02 compared to 1.11 in 2016. In 2015 the PRD was 1.01. It was 1.02 in 2014. In 2013 it was 1.00. In 2012, 2011 and 2010 was 1.01. It was 1.00 in 2009, 2008, 2007, 2006, 2005 and 2004. The PRD measures the vertical equity or the relationship of low-value and high-value properties. A PRD of more than 1.00 suggests that high-value properties are under-appraised compared to low-value properties and a PRD of less than 1.00 suggests that high-value properties are over-appraised compared to low-value properties.

The 2017 median ratio for commercial property was 87.7% compared to 90.0 in 2016. The COD in 2017 was 11.6 compared to 7.7 in 2016. A total of 27 sales were used in the commercial study. The PRD for commercial property is 0.99 in 2017 compared to 1.08 in 2016, in 2015 it was 1.00 compared to 1.18 in 2014.

INFORMAL MEETINGS UNDERWAY

As of March 30, 2018, a total of 576 informal meetings requests had been received. Decisions have been made on 66 to date with 38 being adjusted and 28 not changing. Since the filing deadline for postmarked requests was after work hours, we may still have a few more coming in the mail. In 2017, 944 requests came in while in 2016 there were 522 informal meeting requests recorded. This compares to 796 meeting requests in 2015; 1,024 requests in 2014; 561 in 2013; 700 informal meetings in 2012; 940 and 569 meetings for the same timeframe in 2011 and 2010, respectively. The total number of meetings in 2009 were 951, in 2008 there were 864, in 2007 there were 1,370, 2006 had 1,196 and 1,180 in 2005. The total informal meetings in 2004 were 1,012 with 1,376 in 2003; 1,135 in 2002; 1,872 in 2001; 1,607 in 2000; 1,417 in 1999 and 1,874 in 1998.

Informal meetings began on Wednesday, March 21. A variety of requests and reasons for value changes have come up including some requests to increase the value. There have been several questions and appeals on agricultural land devoted to production once again due to the increase in agricultural value. Staff will consider all arguments and statements and completely research the valuation as they make their decisions. Informal meetings will continue as scheduled through May 11 and all decisions should be in the mail by end of day May 18. A property owner may continue their appeal to the Kansas Board of Tax appeals by filing an application with that agency within 30 days of the notice of results of the informal meeting.

For those who missed the filing deadline on March 30, there will be an opportunity to contest the valuation when the taxes are due later this year. This is referred to as a Protest of Payment of Ad Valorem Taxes. A property owner may only contest the valuation one time per year.
