

INFORMATION ABOUT YOUR PRESCRIPTION DRUG PLAN

Douglas County utilizes MedTrakRx to administer its Prescription Drug Plan.

Will I receive an ID card? Prior to your effective date you will receive a new CoreSource health insurance card. There is a MedTrak logo on this card. Show this card to your pharmacist when you get a prescription filled.

Where can I fill my prescriptions?

- **Retail Pharmacies.** To find out which pharmacies participate you can log onto our website and click on Pharmacy locator, or call MedTrakRX.
- **Performance 90 Pharmacies.** These pharmacies can fill 90-day supplies of maintenance medications. To find out which pharmacies participate you can log onto our website and click on Pharmacy locator or call MedTrak Services.

Is my drug a Tier 1, Tier 2, or Tier 3 drug? Please refer to the **Select Formulary**, which can be found by logging onto our website and clicking on Forms and Downloads.

- **Tier 1 drugs** are low costing generic medications.
- **Tier 2 drugs** are high costing generics (greater than \$100 for a 30-day supply or \$300 for a 90-day supply)
- **Tier 3 drugs** are high costing generics and lower costing brand name drugs.
- **Tier 4 drugs** are Brand drugs which are the most expensive drugs used to treat a specific condition. Newly released brand drugs are placed in Tier 3 until reviewed. If you are taking a Tier 3 drug, discuss the Select Formulary options with your doctor to see if a switch to a Tier 1 or Tier 2 drug is appropriate.

Will I pay more if I choose to fill a Brand drug when a Generic equivalent is available? Yes. If you have a Brand prescription filled when a Generic equivalent is available, you will pay the Brand Copay, plus the difference in cost between the Brand and the Generic drug. This Plan encourages the use of Generic drugs because in most cases Generics are just as effective as Brands and much less expensive. Please ask your physician and your pharmacist to prescribe and dispense Generic drugs whenever possible.

Can I obtain a 90-day supply of my NEWLY PRESCRIBED medication?

Your prescription drug plan includes a “Starter Dose” program. Prior to getting a 90-day supply of any new medication at a Performance 90, you must start with a 30-day supply at a Preferred retail pharmacy. This reduces wastage in cases where your doctor tells you to stop taking the new medication early because it is not working or is causing side effects.

How can I find out more about drug alternatives and cost savings? This Plan utilizes MedTrak’s ScriptCHOICE Program. The program consists of sending ScriptCHOICE letters to plan members taking high costing Brand medications and explaining the benefits of less expensive alternative drugs. During the year, if you receive a ScriptCHOICE letter, please take it to your doctor to see if one of the preferred, alternative medications might be right for you. Switching to these preferred drugs will save you and the Plan money! eScriptCHOICE also allows you to view and price drug alternatives on our website. See website and registration information below.

Does MedTrak have a website? Our website address is www.medtrakrx.com. Register using the MedTrak information on your ID card. Our website includes the ability to search for participating pharmacies, research drug alternatives, and print a history of your prescription claims. (Please note that due to the HIPAA law, members 18 years of age and older must each register separately.) Please call MedTrak for any assistance in this process.

This is practical information regarding your Prescription Benefit Plan. For a more detailed description of your Health Plan, please refer to your Summary Plan Description (SPD) provided to you by your employer and/or the Medical Benefits provider.
