2016 Natural & Cultural Heritage Grant Program
Grant Application Guidelines

I. OVERVIEW

Purpose
The Douglas County Commission has authorized grants funds of approximately $225,000 in the 2016 County budget to assist with the development and creation of natural and cultural heritage conservation projects. Following the recommendations outlined in The Natural & Cultural Heritage Task Force Final Report, the Heritage Conservation Council (HCC) has allocated funding for 2016 heritage priorities as follows:

Major Grants - $90,000-$124,000
A major grant project can receive up to 55% of the total allocated funds. A major grant proposal is defined as a proposal requesting at least $90,000 and no more than $124,000. Grant projects falling in this category should be large enough to have a major impact on the conservation of our natural and cultural resources. These grants are competitive and not every proposal will be funded.

Target Grants – Up to $89,999
A series of target grant projects can receive up to 30% of allocated funds. Target grant proposals are equally important for conserving Douglas County natural and cultural heritage and applicants may request at most $89,999. These grants are competitive and not every proposal will be funded.

2 Major and Target Grant allocation percentages are subject to change during the HCC’s grant evaluation process.
Grant Period
FY2016 grants should be completed within a 24 month period from the project start date.

Reimbursable Grant Program
Except for grants in the amount of $5,000 or less, the grant program should be treated as a reimbursement grant. The grant recipient shall pay, in full, all costs of the project as they become due and payable. Progress payments or monthly billings for a percentage of the completed project are not reimbursable under the program. This provision should be taken into consideration when calculating the cash flow for the project and itemizing the budget.

IV. APPLICATION EVALUATION & SELECTION

Evaluation Process

Applications will be reviewed for completeness by the HCC Program Coordinator. After the application deadline closes, the Program Coordinator will provide application materials to each member of the HCC for evaluation using the grant evaluation criteria (see below).

Grant applicants submitting a Major grant application will be required to make a presentation regarding their proposal to the HCC. Applicants submitting a Target grant application will be given the opportunity to answer questions from members of the HCC about their application.

The HCC will forward its grant award recommendations to the Board of County Commissioners. The Board of County Commissioners make all final funding decisions.

Competitive Evaluation Criteria

The Natural & Cultural Heritage Task Force Final Report concluded that grant applications should be evaluated according to the impact the proposed project would have on conserving our county’s heritage. Therefore, as outlined in the Task Force Final Report and modified by the Board of County Commissioner on October 15, 2014, grants are evaluated by the Heritage Conservation Council based on the following criteria:

i) Highest Criteria (more heavily weighted in evaluation)

1. Conservation and Preservation of Natural and Cultural Resources: The project provides substantial benefit to the conservation and preservation of natural and cultural resources.
2. Matching Resources: Refers to the presence and extent of additional resources dedicated to the project activities (i.e. in-kind contributions, additional grant funding, cash on hand, loans, or volunteer labor).
3. Sustainability: Refers to the long-term maintenance of a project. (i.e. What steps will be taken in the future to ensure the preservation of the project?)

ii) Remaining Criteria (all of equal importance)

4. Overall Quality of Application: Takes into consideration the grant application’s completeness, clarity, thoroughness as well as the overall thoughtfulness of the grant project (i.e. is the budget thorough and reflective of the project activities? Did the applicant fully answer each application question?)
5. **Urgency:** Refers to both the nature and extent of preservation threat.

6. **Community Impact:** Refers to how the project contributes to maintaining or enhancing Douglas County’s heritage for public benefit. This may include public educational benefit and/or economic impact, including an emphasis on proposed projects using Douglas County procured materials, supplies, and labor whenever feasible.

7. **Connectivity:** Refers to how strongly the project connects to physical sites and interpretive stories, as well as demonstrating a collaborative effort between agencies or organizations.

8. **Educational/Interpretative Value:** Refers to opportunities for the public to acquire educational benefit (i.e. Is there evidence of educational programs, exhibits and/or publications?).

9. **Public Access:** Refers to whether the project includes opportunity for the public to experience or have contact with the project, including direct physical (on-site) access or virtual access (films, books or digital media).

   If no public access will be allowed, what is the justification for this project?

10. **Budget:** Refers directly to how reasonable the costs associated with grant project activities outlined in the budget appear. (Do the cost estimates appear valid based on known costs? Are all project costs accounted for?)

11. **Feasibility:** Refers to how realistic the proposed project is and the capacity of the applicant to finish the project. Considerations include the project description, timeframe, projected costs, and having the necessary regulatory approvals or those yet to be secured, such as zoning approvals and land use rights. Is there evidence that the individual or organization has the capacity to accomplish the project? If the project requires expertise the organization does not have, how will that expertise be supplemented?

12. **Designated Structures, Districts and Landscape:** Such listing and designations include National, State or Local Register of Historic Places for structures and districts; landscapes with national or state recognition and designated as conservation areas; wilderness areas; and historic or scenic trails.
